VOL. VII. NO. 115.

SANTA ANA, CALIFORNIA, WEDNESDAY EVENING, APRIL 24, 1912.

50 CENTS PER MONTH

SMITH HOLDS ISMAY AS WITNESS

Also Warns Him to Not Interfere In Titanic Probe; Warm Testimony as to Ismay

FLEET SAYS HICHENS WAS DEAF TO CALLS FOR HELP

Women Rowed Boats; Bremen Reports Seeing 100 Dead; Was Mt. Temple Near?

WASHINGTON, April 24.—"Get to hell out of that," was the order of Fifth Officer Lowe of the Titanic to Ismay, when the managing director of the White Star line entered the lifeboat, following the disaster, according to Lowe's testimony before the Titanic investigating committee. Lowe declared that Ismay "appeared very anxious to get off the Titanic," and said he was not aware of Ismay's identity when he gave his order. He declared Ismay urged, "Lower away, lower away," when he was seated in the lifeboat.

WASHINGTON, April 24.—Charging an attempt to shape the course of the Titanic inquiry, Chairman Smith has issued a statement declaring that "interference would no longer be tolerated." He made veiled hints referring to J. Bruce Ismay, and exonerated the Titanic's officers and crew from the alleged attempt to block the expose.

Scores of fashionably dressed women today swarmed to the Titanic investigation committee room, seizing every seat.

Policemen were compelled to eject them to make room for the committee. Officers were stationed in the room to preserve order. J. Bruce Ismay appeared early. He asked to testify immediately and he was permitted to go to London where his wife has collapsed. He promised to return whenever summoned. Senator Burton refused to await the arrival of Chairman Smith. He then began questioning Lookout Frederick Fleet, who testified yesterday that the White Star Steamship Company had denied his request for marine glasses.

Fleet testified that Quartermaster Hichens had charge of the boat on which he escaped. The women urged him to return to the Titanic to rescue the shrieking passengers. Hichens refused. Fleet said the women took turns at rowing.

Here Chairman Smith interrupted with a veiled attack on J. Bruce Ismay, saying: "From the beginning of the investigation a meddlesome attempt has been made by certain persons to influence the committee's course, and to stop the procedure. I have also heard that misrepresentations had been made. I wish it distinctly understood that the committee will tolerate no attempts to shape its course."

After declaring that he never took a drink in his life, Fifth Officer Harold Lowe of the Titanic, testified that he was awakened on Sunday night by voices from the deck. "I found the passengers, donning life preservers and entering boats. The vessel was tipping at an angle of fifteen degrees. I got my revolver, then helped to load boat No. 5, with First Officer Murdoch in charge."

Lowe gave warm testimony in regard to Ismay.

MOUNT TEMPLE SAID TO BE BUT 50 MILES FROM TITANIC
WASHINGTON, April 24.—Acting on an anonymous tip, Chairman Smith of the investigating committee has asked Canadian Premier Borden to hold the steamer Mount Temple at Montreal. Smith is seeking a verification of the report that the Temp. was only fifty miles from the Titanic when she sank. The Canadian government replied that all possible aid will be given.

McKAY-BENNETT NEARS HOME WITH EIGHTY TITANIC DEAD
HALIFAX, April 24.—The steamer McKay-Bennett, bearing eighty bodies of Titanic wreck victims, is expected here late today or tomorrow. Reports from the Newfoundland banks say no bodies have been found for ten hours, and it is believed the last possible one has been rescued from the waves. The vessel is coming in to bury the remains found, and will then probably return to the search.

SMITH HOLDS ISMAY AND FRANKLIN IN WASHINGTON
P. A. S. Franklin and J. Bruce Ismay both expressed strong desire to return to New York yesterday for several days, but Senator Smith, chairman of the investigating committee, refused to excuse them for a single day.

Liners Halted— One by Crew—One By an Accident

SOUTHAMPTON, April 24.—Because 300 stokers and firemen refused to sail unless the life-saving apparatus was augmented, the Olympic, the sister ship of the Titanic, scheduled to sail for America today, was unable to depart. The company had installed sixty additional boats, but the firemen were not satisfied.

Late this afternoon the Olympic had not sailed, although the officers declared she was sufficiently manned, having recruited stokers from incoming ships. Other stokers attempted to persuade the entire crew to leave the ship because they alleged the emergency boats were unseaworthy. The officers prevented them by raising the gangways.

MAURETANIA SMASHED INTO PIER THIS MORNING
NEW YORK, April 24.—Clearing for England at 1 o'clock this morning, the Cunarder Mauretania created consternation among her 1200 passengers by smashing into the pier. The bridge rail was twisted, but only minor damage was done. None were injured. The Panama-Pacific Fair commission is on board the Mauretania.

Bulletins of News

Hot from the wire up to 3:30 p. m.

THE WEATHER
Showers tonight and Thursday; light southwest wind.

D. K. Pearsons Ill
With Pneumonia—No Hope
CHICAGO, April 24.—There is no change today in the condition of D. K. Pearsons, the eccentric philanthropist, who is dying of pneumonia. The doctors say there is no hope.

Call Made for Statement Of National Bank Business
WASHINGTON, April 24.—The comptroller of the currency today issued a call for a statement of the condition of all national banks at the close of business on April 18.

Senate Committee Favors Sloan for Arizona Judge
WASHINGTON, April 24.—The Senate judiciary committee, eight to six, voted yesterday to recommend the confirmation of President Taft's nomination of Richard Sloan to be United States district judge of Arizona.

Spokane Editor Shot and Killed by Crazy Russian
SPOKANE, Wash., April 24.—E. H. Rothrock, the city editor of the Spokane Chronicle, was shot and killed today by Richard Aleck, a Russian, who entered the editorial room and shot Rothrock without warning. He was jailed at once. Aleck is apparently crazed by the Titanic disaster.

Fires by Mutinous Soldiers Sweep Shan Hai Kwan
TIENTSIN, April 24.—Fires started here by mutinous soldiers have swept Shan Hai Kwan. A thousand are homeless and many deaths are reported.

"DREMMER" PASSED 110 DEAD BODIES OF TITANIC VICTIMS

NEW YORK, April 24.—The captain of the liner Bremen, arriving today, declared that he saw a hundred bodies of Titanic victims and much wreckage among the icebergs off Newfoundland. He said the cable ship McKay-Bennett was cruising there, therefore he had not stopped to rescue any of the bodies.

BIDS IN FOR RIVERSIDE FEDERAL BUILDING

RIVERSIDE, April 24.—The Southwestern Construction Company of Los Angeles was the lowest bidder on the Riverside postoffice building when the bids were opened in Washington Monday, the bid being \$84,844. There were seven other bidders. The highest being Fred Peter, Riverside, \$118,386. Since purchasing the site there remains of the \$110,000 appropriation \$97,500. It is expected the contract will be awarded within a few days.

Saturday, May 4th Is Selected Clean-up Day

There was an interesting and enthusiastic meeting of the Civic Improvement Association held at the City Hall last evening, pursuant to the call of President A. C. Black, at which there were present representatives from most of the wards of the city.

The matter of cleaning up the city was taken up, and Saturday, May 4th, was designated as "Clean-up Day." The following committee were appointed to have charge of and superintend the work in the several wards: First Ward—Mayor Frank E. Young, president; G. P. Hill and Dr. I. D. Mills. Second Ward—Wm. McKinney, president; Geo. L. Wright and H. H. Reeves. Third Ward—O. B. Alderman, president; R. J. Thompson and Jay W. Powers. Fourth Ward—Geo. W. Minter, president; C. E. Jackson and Prince L. Tople. Fifth Ward—A. M. Davis, S. J. Jackson and Geo. L. Bates. All committees are earnestly requested to organize the forces of their respective wards in due time for effective work on "Clean-up Day."

BLEE QUESTIONS I. W. W.'S IN JAIL

Local Immigration Inspector to Determine Their Status as to Deportation

FIRST MAN TALKED TO IS ANARCHIST

French Jew Believes in Doing Away With All Governments on Earth

Harry Blee, immigration inspector of Santa Ana, has been commissioned by the immigration department to examine the I.W.W.'s who are in the county jail to determine whether or not they are legally in this country. Charles Delacour, of San Diego, recently made a preliminary examination of the twenty-four prisoners. Blee is to go into the matter fully.

Yesterday Blee examined Abraham Lament, a French Jew, who came to this country eight years ago when he was fifteen years old. He said that he is an anarchist, but does not believe in assassinations. He believes in doing away with all governments of whatever kind. He believes this should be accomplished by a general upheaval. He said that he gained his ideas since he arrived in this country. This man probably cannot be deported, although he admits he is an anarchist, for the reason that he is protected by a three-year residence law.

As yet Blee has questioned only one man. He will continue the investigation, and will examine each man thoroughly. Some of the men in the crowd held in jail here for San Diego are American-born, some are foreign-born and never naturalized.

MAURETANIA SAILS OVER NEW ROUTE TO INSURE SAFETY

NEW YORK, April 24.—With a course mapped out that will increase the time of her voyage six hours over the east-bound schedule heretofore, the Cunard liner Mauretania sailed for Liverpool at 1 o'clock this morning. This change is attributed to the desire of the company to exercise every precaution for the safety of the passengers.

The steamer sailed with a full passenger list and there was no indication anywhere of an anxiety that might have been caused by remembrance of the Titanic. Among those who sailed were General Clarence R. Edwards, Admiral Sidney A. Stanton, vice President Wm. P. Sessions, of the San Francisco Chamber of Commerce, and R. B. Hale, Mms. Tetrizzini and Andreas Dippel.

WOMAN FINDS FRIEND ON ENGLISH BENCH

LONDON, April 24.—Judge Rontou yesterday refused the application of a typewriter firm for the commitment to jail of a suffragette named Fowler because she had not complied with an order to pay a debt.

On the ground of sex the judge refused to grant the order.

TAFT PAYS PREMIUM FOR MUSIC FESTIVAL BOX

CINCINNATI, April 24.—President Taft registered the highest bid in the auction of boxes for the May Musical Festival to be given here May 7 to 11. President Taft will attend the first two days and Mrs. Taft the entire series.

The President secured his choice of boxes by giving a premium of \$450.

CITY OF PANAMA DOCKS WITH REFUGEES

eraches Frisco With Load of Women and Children Who Fled From Mexico

ANTI-AMERICAN FEELING GROWING, SAY REFUGEES

Fear Felt For Those Left—Rescue Ships Wait—Sugar Man on Way to Aid His Men

SAN FRANCISCO, April 24.—Laden with women and children, refugees from the west coast Mexican ports, the steamer City of Panama docked here today.

The refugees told horrifying tales of pillaging, murder and rapine by organized bands of outlaws who search for defenseless women and girls in towns. They described the burning of the city of San Blas when the residents refused to raise \$10,000 the guerrillas demanded. The residents fled from the city and watched the flames from the hills. A hundred and seven were reported as having been killed.

The majority of the Americans are remaining in the Mexican ports to protect their property. Anti-American sentiment is increasing in Mexico and unless immediate steps are taken the lives of the remaining Americans on the west coast are unsafe, the refugees declare.

The Mexican gunboat Tampico is lying at Acapulco, and the Southern Pacific steamer Luella at Mazatlan for the safety of refugees if the expected anti-American outbreak occurs. Hundreds are waiting an opportunity to flee from Mazatlan.

MORE ARMS SENT AMERICANS IN MEXICO WITHIN FEW DAYS

SAN ANTONIO, Tex., April 24.—Within the last few days Fort Sam Houston has sent three shipments of arms and ammunition to Americans in Mexico. Fifty thousand rounds of cartridges were sent to Guadalupe. Another shipment went to El Paso, and still a third to some point farther west.

Beyond limiting the shipments were made, army officers are reticent.

SECOND ULTIMATUM MAY GO TO MEXICO TODAY

WASHINGTON, April 24.—President Taft and Secretary Knox conferred at length today on the Mexican situation. It is reported that a second ultimatum will be dispatched tonight as a result of the continued execution of Americans.

"Intervention a Crime"

WASHINGTON, April 24.—"Intervention in Mexico will be nothing short of criminal."

So says S. A. Witherby, just returned from Mexico, after conference with President Taft. He declared that his sentiments are shared by the American Club of Mexico City and by 50,000 other Americans in the troubled regions.

Witherby's story is in contrast to the gory reports from Mexico. Scenes of violence, he insists, are largely the product of the imagination of persons who have property interests to protect. Here and there disorder has resulted seriously, but this, he insists, should be expected where rebellion exists.

MILLIONAIRE SUGAR MILL HEAD TO RESCUE OF FRIENDS
TUCSON, Ariz., April 24.—Much anxiety is felt as to the safety of thirty Americans, officers and employees of the Sinaloa Sugar Refining Company, who are virtually cooped up at Navolato, between Culiacan and the sea. Nelson Rhoades, the multimillionaire head of the sugar mills, has gone on a wild dash to the rescue of his friends. His rescue ship, the "Ramon Corral," was burned to the hull off Topolobampo last Monday and he is attempting the rest of the journey in a handcar. A ship has been dispatched to Altar to take the sugar mill party off if the members are yet alive.

HENEY LIBEL CASE IS ABOUT TO BEGIN

New York Supreme Court to Hear \$250,000 Libel Suit Against W. H. Crocker

SAN FRANCISCO, April 24.—Arrangements were perfected yesterday for the taking of depositions in the \$250,000 libel suit brought by Francis J. Heney, the graft prosecutor, against William H. Crocker. The case will be heard in the New York State Supreme Court, and it is understood that the testimony will review the entire graft prosecution, which Mr. Crocker in an open letter characterized as "passionate, vengeful and criminal."

Depositions will be taken in secret here before E. H. Heacock, former commissioner in chancery, and will only be unsealed by the New York court.

TARIFF ON FRUITS WOULD BE MUCH SAFER WITH ROOSEVELT

Much of the literature sent out from Taft headquarters in this state has been so worded as to make a specious appeal to the fruit-growers of Southern California. These producers have been told repeatedly, in so many words, that the continuation of the protective tariff on lemons and like products could be hoped for only through the re-election of Taft. They have been told that the Progressives would abolish the tariff.

IN ALL OF THIS THERE IS NOT ONE WORD OF TRUTH. FRUIT GROWERS ARE BEGINNING TO UNDERSTAND THAT THEIR INTERESTS ARE MUCH SAFER WITH AN ADMINISTRATION HEADED BY THEODORE ROOSEVELT THAN THEY ARE WITH THE TAFT ADMINISTRATION.

Mr. Taft showed his policy toward the farmers and producers of the country in his Canadian reciprocity bill, in which he sought to take the tariff off the articles which the farmers raise, and to maintain the tariff on the articles manufactured by huge, monopolistic concerns. Taft wanted to admit all raw products free, while all manufactured products were to be highly dutiable. This, in brief, was his policy—a policy which would throw the farmer and producer at the mercy of outside competition which the manufacturing monopolists would retain even greater protection than they now enjoy.

Theodore Roosevelt condemned Taft's policy. He stood for the protection of Americans who produce from the soil. His tariff policy is that of the progressives in general—a duty sufficient to cover the difference in cost of producing and marketing as between domestic and foreign products. Mr. Roosevelt believes in scientific revision of the tariff, whenever it is revised, the difference in cost at home and abroad to be the basis.

THIS BASIS IS ENTIRELY AGREEABLE TO CALIFORNIA FRUIT GROWERS. IT IS WHAT THEY CONSTANTLY CONTEND FOR, AND THEY HAVE HAD SUCH A HARD TIME TO MAINTAIN UNDER THE TAFT ADMINISTRATION.

While the manufacturers of woolen and cotton goods have been the beneficiaries of enormous increases in tariff protection, the fruit men and farmers have had to fight persistently to prevent a reduction of the tariff on the products in which they are interested. Monopoly has been in the saddle, with a full rein; but the independent producers have been in constant danger under the Taft regime. It is but natural that they should prefer Mr. Roosevelt, who favors the producers and who believes that the duty on monopolized manufactures should be revised, scientifically, until it becomes just alike to capital, to labor and to the ultimate consumer.

OUTLOOK GOOD FOR DIRECT VOTE PLAN

Believed Congress Will Unite on Direct Election of Senators Resolution

WASHINGTON, April 24.—Although the Senate yesterday, by a vote of 42 to 36, insisted on adhering to the Bristow amendment to the direct election of senators resolution, hope was strong last night that the two houses will come together and that within a very short time the proposed constitutional amendment will be ready for submission to the states.

It would occasion no surprise if the house recede from its position within a week and bring to a conclusion the great fight that has extended over three-quarters of a century.

GIRL DIVES INTO SEA FROM HEIGHT OF 68 FEET AT VENICE

VENICE, April 24.—Miss Gertrude Johnson of Santa Monica performed a remarkable feat yesterday afternoon when she dived from the roof of the Venice Auditorium into the ocean, a distance of 68 feet. The dive was made at high tide with a strong tide rip running.

The feat was all the more remarkable as Miss Johnson, in diving, turned a complete somersault, doubling up like a jack-knife and then straightening out full length just as she struck the water. She did not go under the water more than six feet.

900 SCHOOL CHILDREN TO SING IN FESTIVAL

PASADENA, April 24.—Nine hundred school children from the kindergarten and grammar schools of Pasadena are to participate in a monster musical festival here May 9 and 10. The concerts will be the largest ever attempted in Pasadena. Miss Eleanor Bush, director of music in the public schools, will be in charge.

FIGHTING TO SAVE MORGANZA LEVEE

NEW ORLEANS, La., April 24.—Away from the inundated districts of Northern Louisiana and Southern Mississippi and Arkansas the flood interest in Louisiana yesterday shifted to the confluence of the Red and Mississippi rivers.

At that point a gigantic battle is in progress to save the Morganza levee, which forms the key to the sugar district, and the breaking of which would cause more loss than the failure of dikes anywhere else except around the city of New Orleans. Men are toiling heroically to strengthen the levee.

Hope to save the Morganza levee has not been abandoned, but the situation is desperate. The people are hopeful.

GOV. JOHNSON TO TOUR SOUTHERN CALIFORNIA

SACRAMENTO, April 24.—After being confined at home for several days with a sore throat, Gov. Johnson will speak on Saturday at a Fresno Roosevelt meeting. He will speak at Los Angeles on Monday night, and in the following week he will tour Southern California cities, where he will attempt to offset any sentiment he believes the lemon tariff raises may have created for President Taft.

POMONA GIVES "CREATION"

Great Oratorio Rendered By Big Chorus of 90 Listened to By Audience of 1100

POMONA, April 24.—Haydn's oratorio "Creation," was sung last night before an audience of 1100 by the Pomona Choral Union, ninety singers taking part.

Professor Fred Bacon, of Pomona College, conducted, while an orchestra of twenty-five pieces furnished accompaniment. Ludwig Opil, of Los Angeles, rendered a solo on the cello, and Mrs. Bertha Stivers, also of Los Angeles, assisted.

19 HENS LAY 450 EGGS IN MONTH FOR COLORADO PARSON

FORT COLLINS, Colo., April 24.—Rev. J. C. Kline, pastor of the First Presbyterian church of this city, claims the state championship for his flock of nineteen hens that laid 450 eggs in one month.

ROOSEVELT'S VICTORY IN 2 STATES

Kansas Turns 207 Out of 272 Delegates to Him—West Virginia Adds 2

TAFT APPARENTLY WINS OUT IN NEW HAMPSHIRE

Gov. Johnson to Tour Southern California—La Follette in Santa Ana May 2

KANSAS CITY, Mo., April 24.—Colonel Roosevelt made a clean sweep of the Kansas primaries, swinging into control of three districts yesterday. In the fourth district convention he will have eighty out of ninety-five delegates; in the fifth, sixty out of one hundred, and in the eighth, sixty-seven out of seventy-seven.

Both the fourth and fifth will have an additional county primary, but the result will not be changed. Returns from Sumner and Harvey counties last night indicated Roosevelt as leading Taft in the eighth district by almost eight to one.

WEST VIRGINIA ADDS TO ROOSEVELT DELEGATES

WASHINGTON, April 24.—Ohio County, in West Virginia, yesterday elected Roosevelt delegates to the state convention, assuring Roosevelt delegates to the national convention at Chicago.

Saturday's elections in the various West Virginia counties made it certain that Roosevelt would have at least fourteen of the sixteen delegates.

NEW HAMPSHIRE SEEMS TO HAVE BEEN WON BY TAFT

CONCORD, N. H., April 24.—President Taft last night seems to have a majority of delegates to both the district and state conventions elected in New Hampshire yesterday. Nine out of eleven of the larger cities went for Taft. One city went solid for Roosevelt and one other city will have a divided delegation.

Hope of the Taft forces that the state would not be solid for Roosevelt was based on the First Congressional district, only half of whose delegates had been elected. Roosevelt then had a majority of this half, but the issue could not be decided until Ohio County voted. Yesterday's voting settled the issue.

LA FOLLETTE IN SANTA ANA ON THURSDAY

LOS ANGELES, April 24.—A revised La Follette itinerary was announced today as follows: Long Beach, next Saturday evening; Pomona, Tuesday morning at 11; Riverside, Tuesday afternoon at 3; Redlands at 11 on Wednesday morning; Highlands, at 2 on Wednesday afternoon; San Bernardino, at 4 on Wednesday afternoon; Santa Ana, Thursday at 3:30. La Follette's revised itinerary also includes Monday at Santa Monica at 5 in the afternoon; Ocean Park at 7:30; and Venice at 8:30; Ontario, Wednesday at 8 and San Bernardino at 4.

TAFT FORCES WOULD SACRIFICE PARTY TO BEAT ROOSEVELT

A Washington dispatch to the Los Angeles Examiner says: "Shall the Republican party be sacrificed, if need be, to defeat Roosevelt for the nomination for President?"

This was the question debated last night at the White House by President Taft, seven of his cabinet officers, Presidential Secretary Hilles, Senator W. Murray Crane of Massachusetts and Representative McKinley of Illinois, the President's campaign manager.

It was decided in the affirmative. The first step toward carrying out the plan also was taken. It will be in the nature of a vitriolic attack on Roosevelt by President Taft.

The attack will be made in Massachusetts Thursday—at Springfield, Worcester and Boston—in set speeches, and at Palmer and South Framington for the celebration of masses. The President will follow up this attack Saturday in speeches in Newark, N. J., and Trenton, N. J.

"I AM ABOUT TO BEGIN," SAID TEDDY TO MENACED ATTACK

OYSTER BAY, April 24.—Hearing of the intended "bomb" President Taft is said to be about to hurl at him, Colonel Roosevelt said yesterday, according to his friends:

"About the bomb, if you or any of you are Pickwickians you may remember Mr. Snodgrass taking off his coat and saying 'I am about to begin.'"

BEQUEST CAUSES SUIT

DUBLIN, April 24.—A bequest of \$40,000 for the celebration of masses has been made the basis of a contest of the will of the late William Ryan of Roscrea, Tipperary, who left \$101,000.

GILLETT WILL TELL OF TAFT

Former Governor of California Takes the Stump For the President's Candidacy

Tomorrow evening J. N. Gillett, former governor of California, is to deliver an address at Spurgeon's Hall. Gillett's speech will be in favor of the candidacy of President Taft for the Republican nomination. Gillett has been making a tour of the state. This week he will speak in a number of Southern California cities.

The meeting tomorrow night will be held under the auspices of the Santa Ana Taft Republican Club. Aside from the meeting at which the club was formed, this will be the first public Taft meeting held in Santa Ana this campaign.

DIRE DISTRESS It Is Near at Hand to Hundreds of Santa Ana Readers

Don't neglect an aching back. Backache is often the kidneys' cry for help.

Neglect hurrying to the kidneys aid means that urinary troubles may follow.

Or danger of worse kidney trouble. W. N. Nelson, 902 E. Fifth St., Santa Ana, Cal., says: "Six or seven years ago, while living in Pennsylvania, I used Doan's Kidney Pills and was relieved of pains in my back from which I had suffered. Occasionally my back was so painful that I could scarcely turn over in bed. In addition to this, I also had rheumatic pains. The contents of a few boxes of Doan's Kidney Pills, procured at Dean's Drug Store (now Wheeler & Mateer's Drug Store) removed my aches and pains and I have had no cause for complaint since."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doans—and take no other.

BABY SWALLOWED DANGEROUS TABLET

Orange News: The two-year-old baby daughter of Mr. and Mrs. C. F. Winklepeck was the occasion of a bad scare in the Winklepeck home Saturday, when the little tot found some antiseptic tablets and innocent-

Dollar Thinness For 25c

HERE'S only one sheer, guaranteed silk lisle hosiery selling for 25c—only one that's not heavy and hot; that's fit for summer wear. It's

BUSTER BROWN'S "DARNLESS" Guaranteed Hosiery.

For Men, Women and Children.

Four pairs \$1. 25c the pair.

It really is sheer, thin and cool. Has heavy 2-, 3- and 4-ply reinforced wearing parts woven into the gauzy lisle body. Finished with a lustre resembling pure silk. Has French Garter tops, high-spliced heel and "German Loop" toe. Absolutely seamless and colors are fast-dyed.

HILL-GARDEN & CO. 112 West Fourth St.

IT WILL PACK AT VILLA PARK

Redlands Company Has Leased Packing House—Pavers on the Ground

Orange News: It has been authoritatively announced that the Elephant Orchards Company, with headquarters at Redlands, and packing houses in all of the finest orange districts of Southern California, will pack in local territory. The company, which is one of the largest and best known in this end of the state, has leased the Villa Park packing house and will pack under the famous Elephant brand.

This district has been selected for its Valencia, whose quality is generally acknowledged to be unequalled elsewhere, and which will make the Elephant Valencia compare with the widely known Elephant navel in the Redlands district.

Manager Sweney, who has been placed in charge of the Villa Park packing house, states that the company will pack here all of this season and hopes to become permanently established in this locality.

There to Pave E. R. Werdin's paving outfit is being unloaded at the Palm avenue crossing of the Santa Fe, where, north of the walnut packing house, his asphalt mixing plant will be set up.

Mr. Werdin is bringing his outfit from San Bernardino, where he has just completed \$20,000 worth of work. His outfit occupies four cars, in addition to which some of his teams and wagons were driven down.

Work will probably be begun in the Plaza next week, and when that job is completed it is probable that his outfit will be wanted for other work, as the property owners on North Glassell street in the block north of the Plaza are about ready for paving.

Mr. Werdin states that he completed some very satisfactory paving in the residence district of San Bernardino.

Since he completed the work on the outfall sewer of the city of Orange he has incorporated under the name of the Los Angeles Paving Co., with a capitalization of \$50,000.

Street Lecture E. B. Hunt of Los Angeles, will deliver the next of the Socialists' every Thursday evening lectures, on April 25, weather permitting, on Main street near Fourth.

As We Can Prove to You No costly experiments or tedious delays when you turn over your Auto troubles to our expert repair men.

Our Guarantee Our guarantee is the iron-clad guarantee of full satisfaction or money back. We ask a chance to prove it to you on your next repair job.

Congdon Motor Car Company 414-416 North Main St.

San Juan Hot Springs Having completed several new buildings, we are prepared to accommodate all visitors. Stage will meet north and south bound trains on Saturdays and Tuesdays at 11 a. m. in Capistrano. For particulars write

DRIED FRUIT OUTLOOK GOOD

Coast Packer Tells New York Paper of Crop Prospects as He Sees Them

The following is from the New York Journal of Commerce:

"Starting a month ago on a tour of the principal markets of the country, with New York his objective point, H. R. Lipman, of Rosenberg Bros. & Co., of San Francisco, has arrived here in a most optimistic frame of mind as a result of what he picked up on his travels with reference to trade conditions.

"As to future prices it is rather early yet to say with any approach to definiteness what the crop will be, but the chances are rather against another big crop, as the records show that there have rarely been two large crops in succession.

"There have been quite heavy sales of 1912 peaches owing to the reasonable opening prices, and jobbers all over the country have seemed to feel that there will be a large outlet for goods bought now during the year. Many of them, while agreeing that prices are low are still inclined to withhold orders, preferring to await developments.

"Opening prices on new crop apricots have not been generally named for the reason that this is one of the most uncertain crops, the fruit being more susceptible to light frosts than any of the other varieties. The danger of frost visitations is by no means yet passed in California and it will be two or three weeks yet before the crop will be relieved of the possibility of damage from this cause. Even in the best of weather there is always the possibility of a decided change in temperature over night. At present the outlook is favorable for a good crop of apricots, though in some sections the set on the trees is light. The backwardness of the packers in naming prices on this fruit is attributable to the uncertainties of the crop situation, based on the probability of frost.

Such prices on future apricots as have been talked of are quite a little lower than those of last season."

Mr. Lipman was particularly optimistic in his view respecting the probability of clearing up old stocks before the new season for arrivals opens. Not only here but all over the country the results of his personal observations led him to believe that the consuming markets have actually less than they will need to satisfy normal requirements for the balance of the season.

"If the demand from now on to August is only normal," said Mr. Lipman, "it requires no prophet to predict a close clean up of practically everything in the dried fruit line. As far as spot prunes and peaches are concerned," he continued, "a normal demand would undoubtedly bring about a decided advance over present market values."

"Asked why he took such an optimistic view of business in the interior, Mr. Lipman said that crop conditions throughout the great agricultural states were never better. The Western jobbers especially are looking for a big consuming demand for dried fruits as a result of this, as prior to and during the harvest season these commodities are a large item on the menu of farm help. Provided there are no untoward developments affecting the crops of the great staples the demand for dried fruits, producing corn, wheat and other cereals will be enormous. Such a demand would have to be supplied out of spot stocks, as nothing but a new crop except apricots would be ready in time to meet it, and as supplies in the Middle West, especially of prunes, are light the requirements would have to be filled by either coast or New York holders, who control the bulk of the present available stock."

WESTMINSTER NEWS BUDGET

WESTMINSTER, April 24.—Mrs. J. Watson is spending a week with her sister, Mrs. Johnston, in Los Angeles. Mrs. Smithline left on the S. P. for Tulare on Tuesday. She will visit friends for several weeks.

Mr. C. F. Day and family of Orange, spent Monday with their sons, Orville and Clyde Day, here.

A daughter was born to the wife of G. A. Murdock on Monday, April 15.

Mr. and Mrs. Frank Watson spent Sunday in Los Angeles.

Mrs. Munson of Pasadena is spending a week with her daughter, Mrs. L. W. Moore.

Mrs. J. F. Patterson returned home on Thursday after a month's stay in Los Angeles. Mr. and Mrs. W. L. Patterson accompanied her for a few days' visit.

Mr. and Mrs. Harrison Frost visited friends in Los Angeles from Saturday to Monday.

Nellie Fogle of Los Angeles spent Sunday with her parents south of town.

A bath room and screen porch is being added to the Presbyterian manse.

Miss Edith Murday is visiting her brother, C. C. Murday, in Hollywood.

Mr. and Mrs. Harry Paul have gone to Los Angeles to remain indefinitely.

The local barber shop is again open with Harry Barbour of Los Angeles in charge.

Mrs. Forrest Carpenter and two children, from Oregon, Illinois, are visiting at the homes of Harrison and Charles Frost, before going to Glendale where they will locate permanently.

—Bread at the Cherry Blossom.

Crookshank---Beatty Co.

The choicest of the season's fashions in Ladies' Wearing Apparel are now on exhibition. Spring assortments are now complete.

If You Want a Roof That Will Last and NOT Leak Let Us Put on J. M. Asbestos Roofing for You

It is the only ready roofing made entirely of indestructible materials, the basis is asbestos—an indestructible material, which is quarried from solid rock. The tough fibers of the asbestos rock are carefully separated and worked into sheets of asbestos felt. This mineral felt is then saturated with a special water-proofing compound, which is a non-volatile natural asphalt that never dries out nor becomes hard and brittle.

How can a roofing made of such materials be anything but practically indestructible? We guarantee this roofing for ten years without any expense for repairing. Ask for quotations.

CHRISTIAN SCIENCE LEADER LECTURED

Virgil O. Strickler Spoke to a
Well Filled House Here
Last Night

A well filled house greeted Virgil O. Strickler, Christian Science lecturer, at the Grand Opera House last night. The speaker was introduced by S. M. Craddock of Orange.

In part, the lecturer said: "However much people may differ in their attitude towards Christian Science every one will admit that it has done many good things. Entirely apart from the questions of physical healing, it is generally conceded that it produces a happy and contented mentality, that it destroys fear, and makes people loving and kind."

When we add to this the fact that it has healed many sick people who had previously been unable to find relief under other systems, that it has cured many of the drug habit, and the liquor habit, has restored harmony in many homes that were discordant, and has given hope and courage to people who were discouraged, it is easy to understand why Christian Science has spread from one end of the earth to the other with such wonderful rapidity.

Why should any one not wish to believe that God heals the sick? Is it not a thing to be desired? and is it not something for which humanity has been praying through the centuries? Now that it is here why should any one not wish to accept it? Let each one ask himself that question.

Many people believe that God either sends sickness or at least permits some other power to send it, so that in some way it is an agency for good to work out our spiritual growth. Now if that is true why did Jesus come to make war on it? If God created sickness and either sends it or permits it to be sent for any purpose, and Jesus destroyed it and taught his followers to destroy it, was he not working against God? And if sickness is a good thing why did Jesus wish to destroy it?

Christian Science shows that sickness and sin originate in mortal mind, and are the result of the operation of this so-called mind. God did not create them, nor do they result from the operation of spiritual law. In destroying them Jesus did not work contrary to God's laws. Christian Science insists that Jesus was consistent. He did not do the will of the Father at one time, and at another seek to overturn His laws. It follows, then, that if Jesus performed his works in accordance with, and by means of, God's laws, the same results must follow in every age whenever those laws are understood and applied.

Christian Science pleads for a rational understanding of God in place of mere belief about Him, and it is urging mankind to look for the real causation in Mind and not in matter. It declares that God is not the author of sin, sickness, or death, hence these conditions are illegitimate and can be destroyed by a knowledge of the truth. It denies that there is any divine authority for man to sin, suffer, or die, and recalls the solemn declaration of the Scripture that God gave man as his birthright dominion over all the earth and over all that it contained.

As time goes on humanity exhibits an ever decreasing interest in theories about God that are not helpful and practical. This tendency has been deplored by the churches as indicating a loss of interest in religion, but it is not so. It indicates a tremendous desire for a religion that is practical.

The demand for practical things also demands a religion that is practical. People are no longer satisfied with theories about what is to happen in another world. What is desired is a demonstrable religion that saves from present troubles—from sickness, and sin, and failure, and unhappiness, and the countless ills of every-day human experience—and if there is a religion that will do that, it can be safely trusted for the future.

Christian Science is essentially a practical religion. It has been called applied Christianity. There is the same difference between Christian Science and other systems that there is between mathematics and engineering. Mathematics does much good in many ways, but it is not until the rules of mathematics are applied to human affairs that we see brought out great bridges, railroads, subways, lofty buildings, and other things that are of public utility, and which contribute to the well-being of mankind. So it is only when the teachings of Jesus are understood and applied to human affairs that we see the sick healed, sinners liberated from bondage to evil habits, and other practical things done for the betterment of humanity.

When viewed from any point Mrs. Eddy stands as one of the great characters of this age. She has founded a religion that has restored to mankind the spiritual healing as practised by the primitive church. Within the brief space of one generation her teachings have so impressed themselves upon the public that it would be difficult to find a place where there is not a Christian Science church or society, or at least where there are not some Christian Scientists.

PLEA OF POVERTY TOUCHED ROBBER

Los Angeles Examiner: "Please, Mr. Burglar, don't hold me up, for I am a poor man."

This simple plea, made to a bandit by H. S. Ashley of Anaheim, as he was driving home in a buggy through Orange county with his wife, saved him from being robbed of \$4 last night.

Ashley, with his wife was returning home. When on reaching a dark spot in the road a highwayman covered him with a pistol. The highwayman, touched with pity, felt around in his pockets, to see if

CALZONA

The NEW SANTA FE Railroad TOWN

THE METROPOLIS OF THE COLORADO RIVER VALLEY—SURROUNDED BY THOUSANDS OF FERTILE ACRES—THE CENTER OF A RICH MINING DISTRICT—JOINING THE COLORADO RIVER INDIAN RESERVATION ABOUT TO BE OPENED TO SETTLEMENT—IN THE MIDST OF A GREAT IRRIGATION PROJECT—SITUATED ON THE BANKS OF THE COLORADO RIVER—THESE ARE A FEW OF OUR REASONS FOR BELIEVING THAT THE GROWTH OF

Calzona Will Be the Marvel Of the Great Southwest

A STATEMENT OF ASTONISHING FACTS
REGARDING THE ADVANTAGES OF CALZONA

CHARACTER OF SOIL

The soil of the entire Colorado River Valley is an extremely rich sedimentary silt deposit, equalled only by the valley of the Nile in Egypt.

TRANSPORTATION FACILITIES

The Phoenix branch of the Santa Fe runs through the center of town. A branch line has been started down the Colorado river through Blythe and the Palo Verde valley to Yuma.

CONTIGUOUS MINING CAMPS

Twelve proven gold and copper mines ship from Calzona. The mining industry alone demands the immediate building of a town.

OPENING OF INDIAN RESERVATION

Farms and homes for over 50,000 people. The survey is completed and any day the government may announce the opening. When this occurs you will see the most spectacular influx of settlers ever known in the United States.

WHAT CAN BE PRODUCED

All the semi-tropical fruits, dates, alfalfa and Egyptian cotton. The soil has been found superior to any in California for citrus fruit culture.

ABUNDANCE OF WATER

Water is the magic factor that will transform this wonderful stretch of level, and fertile land into one of the world's great citrus and agricultural belts. The Colorado river runs through the center of the valley.

Calzona Lots Now Offered \$100 to \$300

ON EASY TERMS—WILL SOON BE WORTH MANY TIMES PRESENT PRICES.

FORTUNES QUICKLY MADE

A SMALL INVESTMENT IN OKLAHOMA CITY LOTS MADE ALL THE OWNERS RICH IN 24 HOURS FROM THE OPENING—ONE LOT IN GU THRIE PURCHASED FOR \$400 SOLD IN TWO WEEKS FOR \$19,000 CASH. THE SAME OPPORTUNITY EXISTS FOR YOU IN CALZONA TODAY.

304 North Main St.

APOLOGIZES TO TAFT.

With reckless disregard of the admonition that apology often only makes the matter worse, the Ontario Report apologetically explains its error in crediting the President with only one vote in ten in North Dakota. "This estimate," the Report says, "was based upon partial figures, and seemed to be nearly correct, but it certainly looked very bad when compared next morning in other papers that the Taft vote was 1 in 10. Then and there it was determined to await the official count, and immediately apologize to the public for having inadvertently deceived it.

"The official figures being in, it is our painful duty to acknowledge how gross was the error. Mr. Taft's vote was more than 1 to 40; IT WAS 1 IN 36. The count is: La Pollette, 34,121; Roosevelt, 24,217; Taft, 1659. Mr. Taft's percentage is 2.27651 plus; say, 2 1/2 per cent.

"There is something fascinating in 1659 votes. For instance, there are, 1890 precincts in North Dakota. Did 1659 precincts contribute 1 vote each, while 141 ignored the name of Taft entirely? Or did a couple of hundred precincts rise up in their might and give him 8 votes apiece, while the other 1600 forgot the titular head of the party? We do not know. But there is another interesting computation:

Total vote for Mr. Taft 1659
No. of federal office holders in North Dakota 1643
Taft strength outside of office holders 16
"This is maddening. Who were the 16? By what arduous effort, with what plausible argument, through what insidious pressure, did the devoted 1643 citizens who hold jobs under Mr. Taft allure, persuade or dragoon those 16 private individuals into voting for him? And where were the job-holders' sons? It is possible that among the 1643 there were only 16 sons of voting age?"

WANTED: HOMES FOR BOYS

The Children's Home Society of California, a perfectly accredited institution, is just now trying to find homes for twenty-five boys ranging in age from five to twelve years.

This institution is located at 2414 Griffith avenue, Los Angeles.

A circular issued by the Home, accompanying a letter asking the Register to help find homes for these twenty-five boys, says:

"We invite correspondence from all those who wish to take children. To all such who write us we send a blank application which is filled out and returned. We then consult references, make private inquiry and otherwise collect information concerning the family and the home, and an answer upon the application is returned. If approved, the applicant is invited to come and make a selection, or has given him a description and recommendation of some child whom we consider suitable, and that is continued until a satisfactory child is accepted or until it is seen that no favorable result can be brought about.

"The demand for girls from a few months to five years of age is such that not one twentieth part of it can be supplied, and no new applications for girls at that age are desired. Baby girls a few days or weeks old may usually be had within a short time. The demand for boys is not so great. Both boys and girls from seven to twelve years of age are always on hand waiting for homes.

"There is a very common idea abroad that all the children born of unmarried parents, all those of poor

or unfortunate parents, and all those taken from cruel and unfit parents will 'turn out bad.' No greater error was ever so widely accepted. None is more easily shown to be a wholly mistaken notion.

"The fact is that if a thousand children who have been brought in homes by this society were brought together and examined as to their physical and mental and spiritual qualities they would be found fully up to the average of any other like number taken at random from the public schools anywhere in the state. Hundreds of these children are known to be extraordinary, others are just ordinary and some are sub-ordinary. But their chances for honorable and useful citizenship are better than those of any other group of children of like age and number, because none of them are allowed to be or remain in homes where there is drunkenness or immorality; or in homes where there is hatred or strife because of the presence of children. No one is compelled to keep one of them. If they are not loved and valued and desired in the homes they come back to us. These happy home surroundings place the prospects of these placed-out children above the average prospects of the children living with their own parents; for not every child born into the world has been selected for him a home judged and approved upon the high standard set in this noble work."

Home life is so delightful in Grass Valley that no one can be induced to come out of an evening to attend a political meeting. That is the explanation of the flock of local bosses of their failure to organize a Taft club. The miners, farmers and other plain folk of Nevada county are for Roosevelt but the bosses are for Taft.

Former Governor Pardee, who has been speaking for Roosevelt in California, and who stirred things up in Nevada in a brief campaign, will leave for Panama on April 25th. His absence will be particularly regretted if Gifford Pinchot and Attorney Frank H. Short engage in hostilities regarding conservation.

Former Governor Gillett says Roosevelt won Pennsylvania in a direct primary because the trusts are for him. That would mean that the San Francisco Chronicle, the San Francisco Call, the Oakland Tribune, the San Francisco Post and the Los Angeles Times were now engaged in trust-busting.

A vigorous Roosevelt club has been formed at Stockton. It is expected to get the membership up to 500 or 600 within a week. The following are the officers: President, John M. Perry; vice president, Emily J. Dodge; secretary, George H. McLeod; treasurer, David Wolfe.

Petaluma has organized a Roosevelt club with F. A. Cromwell as president, Assemblyman J. W. Hamilton vice president, and Editor Fredericks, of the Petaluma Independent, secretary. The farmers in that region are for Roosevelt almost to a man.

A telegram from Gifford Pinchot, dated Washington, D. C., states that he will be in California ready to begin his speaking tour Saturday, May 4th. He will arrive in San Francisco May 2nd. He will campaign for one week.

Today actual work was begun in the building of a road up Sevierville Canyon. It sometimes takes years and a lot of talking to get something that everybody knows is needed.

May 4 has been selected by the Civic Improvement Association as Clean-up Day. What's the use of waiting? Do it now.

The prospect of "getting" Governor Johnson's scalp grows less and less.

TO SLAUGHTER COYOTES

Authorities Will Rid Suro Estate of Animals Believed to be Disease-Infected

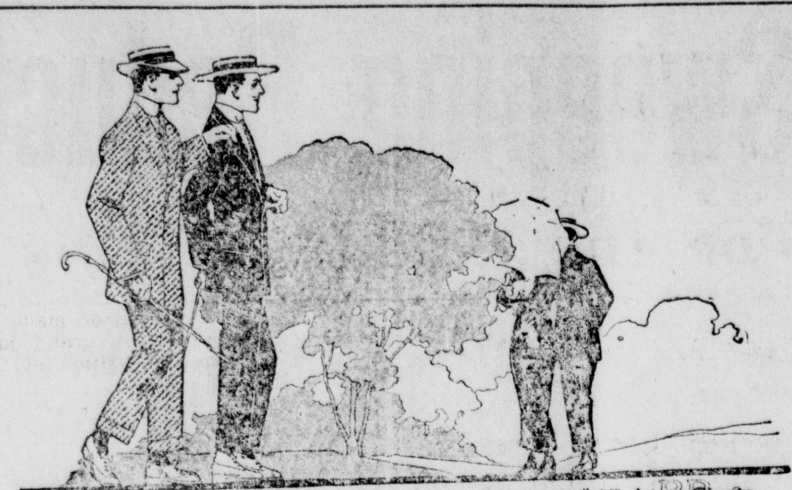

SAN FRANCISCO, April 24.—The Board of Health has begun to exterminate the coyotes in Suro forest to ascertain whether the animals are afflicted with the disease which resulted in the recent passage of the dog-muzzling ordinance.

At the time the muzzle ordinance was causing a great deal of discussion, Mayor Rolph suggested that the coyotes should be driven from the forest with hounds, but yesterday the health officers decided that poison would be the most effective means of ridding the estate of the beasts.

A veterinary of the health board camped out all night near the relief home to discover if there were many coyotes in the Suro woods. From the howls he heard he estimated that more than 100 inhabit the estate.

WELSH DIOCESES APART
Church of England Churches in Wales to Have Own Income and Control

LONDON, April 24.—The Welsh disestablishment bill was introduced in the House of Commons yesterday by Home Secretary McKenna. It provides that, after July 1, following the passage of the act, the four Welsh dioceses shall cease to form part of the province of Canterbury. Committees are to be appointed to take charge of the church property, and distribute it. The Church of England in Wales will be left with an income of \$400,000 out of the existing endowments of \$1,300,000.

"Get the Habit"—trading with

W. A. HUFF

CAPT. KELLY GIVES VIEWS ON DISASTER

Santa Ana, April 23, 1912.

Editor Register:—We hear comments on all sides of the cause of the great loss of life on the steamship Titanic and concerning the responsible parties for that terrible disaster. The fact is we are living in an age of speed craze on land and sea, some on land because they like it, some on sea because they have to. I don't believe there is any doubt in anyone's mind but that the captain of the Titanic was going at too great a speed when he must have known that he might at any time come in contact with icebergs in those waters, but the owners expected him to make time.

I will give an instance in a case of which I know. Two companies were running boats in opposition to each other. When one boat arrived in port the captain went up to the office of the company to report his arrival.

"Well," he said, "I have arrived again."

"Yes," said the manager, "but the other boat arrived before you."

That just meant "if you don't make time, we will have to get some one that can." The next voyage that captain made he was trying to make time and was running at too great a speed in a fog when he ought to have been running under a slow bell. The steamer struck a rock and drowned about sixty persons. That captain included. That was making time.

Before a steamer leaves port for sea the steamboat inspector comes aboard to see that the vessel is properly equipped in the way of having sufficient boats, etc., for life saving purposes. He then makes his report to the headquarters. They say: "Oh, yes, we know there are only about half enough boats, etc., to save the lives of the passengers and crew if an accident should happen at sea, but we have complied with the law."

Then what is the matter with the law, and what will we do with men who make such laws?

Why, send them to the penitentiary where they can do no harm and save the lives of thousands drowned by such a dastardly law.

But the most remarkable thing to me is that this contention of things has been going on for years and the whole nation did not seem to know it.

When have we heard of any accident at sea but with an account that the women and children first are put in the boats and the men are drowned, as there are not sufficient boats to save them?

Now the only cure is to make a law to compel these steamboat companies to carry no more passengers than they can take care of in the way of saving life in case of an accident.

When I went as a young man to sea, now a good many years ago, we carried enough boats to care for all the crew, and could have carried half a crew more in them. The

idea was that the boats would float buoyant, of course.

That was the old-fashioned way, but in these progressive days it is simply a case of money against life. I'll take your money for your passage in my hand and you take your life in your own hand.

We deplore the great loss of life by the Titanic disaster. The bravery displayed by both men and women in the face of death is something to be proud of, standing there on that ship's deck, knowing that in a few minutes she would make the final plunge to launch them into eternity, helping the women and children into the boats under such terrible circumstances.

And yet our marine laws make such conditions possible.

The steamships in this are too large for safety. The smaller steamships are safer, being easily handled and better equipped for life saving purposes.

WM. KELLY, Master Mariner.

THREE WERE INDICTED

Socialist Editor, a Lawyer and a Blacksmith in Trouble From Recent Riot

ROCK ISLAND, Ill., April 24.—Indictments charging assault with intent to murder against E. H. Gardner, a Socialist editor; Harry McCaskey, Republican nominee for state's attorney, and Phillip Wells, a justice of the peace, were returned yesterday by the grand jury that investigated the recent riot which resulted in the killing of two and the wounding of nine persons.

The three mentioned are held responsible for bringing about the fatal clash between the police and the mob that attacked the city hall. Gardner is at the head of a movement for the recall of Mayor Schuyler and Police Commissioner Hart.

There are twenty-six indictments not yet made public.

MASONS PLAN FINE TEMPLE

Anaheim Will Have Handsome Structure—Concrete Pole Demonstration

ANAHEIM, April 23.—Plans for a splendid Masonic Temple, to cost from \$40,000 to \$50,000, which will be the home of the various Masonic bodies of this city have been maturing in the minds of local Masons for some time past. They began to take definite form at a meeting of the Anaheim Lodge, held recently, when a committee was appointed to formulate the plans for a building, and the report as to their progress will be heard at the next meeting. A subscription is now being raised, which is to go toward the building fund. In a general way the plans of the Masons contemplate a building three stories in height, and it is to be erected in a central location. The first floor will be used for business rooms, while all of the second and third will be fitted out in lodge rooms.

The Anaheim Lodge has already a substantial building fund on hand, and recently several thousand dollars was offered. This gives assurance that there will be no difficulty in raising the required funds to erect the new building. The Masonic lodge is one of the oldest in Southern California.

The American Orr Concrete Pole Company, who have just installed their plant in Anaheim, have the industry in good working order now, and have demonstrated their work to the public. The demonstration was for the purpose of showing the stockholders the condition of the company's property for practical work, and of giving those interested an idea of the possibilities of the industry. The plant has now the capacity of twenty-five poles per day, and this can be increased to any amount as fast as the demand may justify. The company is at present preparing to get out a good-sized order of poles, to be used in Anaheim.

The quarterly report made by Manager Blake of the Olive Milling Company to the board of directors of the company, gives a strong line on the splendid growth of the country. It shows that in the first three months of this year as compared with the first three months of last year, the increase was something over \$16,000.

The longicorn beetle, a native of India, is so strong that, although it weighs but 1 1/2 ounces, it can hold suspended in its legs a stone weighing nearly half a pound.

With the idea of becoming a city beautiful, Buenos Ayres has planted more than 142,000 trees in the last 10 years.

SUCCESSFUL MEETING

White Ribboners Heard Echoes of County Convention; Flow-ers to go to Los Angeles

The W. C. T. U. met yesterday afternoon at the home of Mrs. J. H. Rankin, 815 Spurgeon street, and held a very interesting meeting on "Health and Heredity." A large number of ladies were present. Mrs. J. T. Raitt led the devotional service. Echoes from the county convention held last week in Anaheim were given by the delegates who were in attendance. Mrs. Pendleton gave a splendid written report of the first days' convention in which she expressed a good bit of the enthusiasm she brought home from that day's program. Mrs. W. A. Stafford also spoke on the first day's program. Mrs. White, Mrs. Davies, Mrs. Anderson, Mrs. Nickell and others gave quite a full report of the second day. So many good things were on the program that it was not possible to give a full account of the convention.

Mrs. Elizabeth Davis, the new Flower Mission superintendent, made a few remarks on her department and stated the State superintendent had requested that white flowers be so plentiful this year send a box of flowers each Friday to Los Angeles to Temperance Temple and they will be distributed. The ladies were urged to see that Mrs. Davis has plenty of flowers to send. The express charges will be free. The flowers are to be sent to Mrs. Davis' home at 511 East Second street, not later than 9:30 Friday morning.

Miss Emily Cox, superintendent of Health and Heredity, gave a most helpful address on the subject illustrating her lecture by a physiological chart. These lectures are extremely helpful and Miss Cox has been giving them over the county.

The next W. C. T. U. meeting will be that of "Flower Mission Day," and will be held at the home of Mrs. J. A. Stevenson, 1016 North Broadway, in charge of Mrs. Elizabeth Davis, the superintendent. All members will bring or send bouquets to be taken out to sick and "shut-ins." Everyone is welcome to all meetings of the Santa Ana W. C. T. U.

Parent-Teachers Meeting to Be
The Parent-Teacher Association of Lincoln school will meet in the kindergarten room at 3:30 p.m. on Thursday (tomorrow). The election of officers for the next year will take place. By special request, Rev. Mr. Russell will give a talk on "Responsibilities."

A subject of special interest to the

Anyone and everyone may compete in the contest of ticket selling for our public students' recital to be given in Elks Hall, Wednesday evening, May 8th.

First prize is \$7.50 in tuition, or \$5.00 cash. Second prize is \$5.00 in tuition or \$3.00 cash.

Recital giving entails many expenses, so we are charging the nominal price of twenty-five cents per ticket to defray same. A child's ticket free with three adult tickets. 504 1/2 N. Main St. Main 214.

Personals

Mr. and Mrs. A. C. Twist and Charles Twist were among those who journeyed to Los Angeles this morning on the 8:15 car.

Mrs. N. H. Leonard of North Broadway, Mrs. C. S. Minter and A. F. Reynolds attended the funeral of Mrs. Anderson held in Pasadena at 2 o'clock this afternoon. Santa Ana people will remember Mrs. Anderson and her daughters, one of whom, Miss Cave, was employed here in a clerical capacity for a time. Mr. and Mrs. James Jeeper were morning passengers on a Los Angeles bound trolley car today.

Mr. and Mrs. B. Utley spent today in Los Angeles.

Mr. and Mrs. John Kants and family have removed to Los Angeles. J. R. Baunell and family, of Fort Worth, are located on East Second street.

Harry Humphrey is building a five-room, up-to-date bungalow on his Eleventh street lots, and proposes to later put several modern buildings on lots he owns in that vicinity.

Mr. Frank Carden, wife and baby of Winfield, Iowa, are in Santa Ana for a short visit with Mr. and Mrs. L. J. Carden and family. While here they will look around for a suitable home and locate here or else in Modesto. Monday they were taken to Laguna Beach by Mr. and Mrs. L. J. Carden. It was their first sight of the ocean.

Mrs. J. H. Sharp of Brooklyn, Iowa, returned today to Los Angeles where she is visiting after spending a few days here with Miss Mary Talbot.

Mrs. O. K. Forgy, whose serious illness has been the source of much anxiety to her friends, is materially improved in health.

Mrs. George Briggs made a forenoon trip to the City of the Angels.

Mrs. Louise Waite returned to Trabuco this morning with her son-in-law, W. K. Robinson.

L. H. Hill was a morning traveler on an electric car.

WILL PROBE LIFE-SAVING EQUIPMENT

Los Angeles Grand Jury to Find Truth as to Life-Saving Apparatus on Boats

LOS ANGELES, April 24.—A rigid probe to determine whether or not the vessels plying in and out of San Pedro are equipped with sufficient life-saving apparatus will be made by the Los Angeles County grand jury to prevent possible repetition of the Titanic disaster.

The projected inquiry was admitted yesterday by Byron C. Hanna of the district attorney's office.

While it was said the grand jury had no power to compel ships to regulate lifeboats, they can enforce the law providing for the regulation.

It is said many ocean-going steamers in and out of Los Angeles harbor are not provided with sufficient life saving apparatus. Several pleasure boats are lax in this regard, it is alleged.

PANAMA FAIR TO BE EXPLOITED ABROAD BY COMMISSIONERS

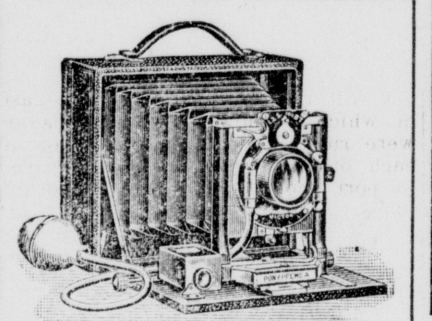

WASHINGTON, April 24.—To initiate more formal movements to secure representation of foreign naval and military forces at the Panama Exposition in San Francisco in 1915, a special commission left Washington yesterday morning for New York and London.

The commission is composed of John Hays Hammond, R. B. Hale of San Francisco, vice president of the exposition; Vice President W. T. Season of the San Francisco Chamber of Commerce, Brigadier General Clarence R. Edwards, U. S. A., and Rear Admiral Sidney A. Staunton, U. S. N., with executive staff.

The commission will meet some of the principal officials of the British government at a dinner given by Ambassador Reid in London, and the trip will be extended to all the principal European capitals.

PRACTICABILITY OF PROPOSED SUBWAY ON FOURTH STREET

An Open Letter to the Business Men, and Citizens of Santa Ana.

Ladies and Gentlemen: Regarding my efforts in the promoting of a subway on Fourth street, under the Santa Fe and Southern Pacific railways. Some one may say that I am audacious in making suggestions to the people of such a beautiful and so well ordered a city as Santa Ana.

When I came here in January I had intended remaining about three or four months in your congenial climate, and looking into your irrigation system, celery, alfalfa and bean culture; have a good holiday, and return to Western Canada.

However, I have accomplished more than I intend, for I consider the time spent in Southern California has been of more value to me than the same time it spent in any of the leading universities; and all from what I have observed in visiting the farmsteads of this fertile valley.

In Canada we adapt the best ideas of the Americans regarding prairie agriculture, and suitable implements, and many of our farmers would use no other make. Then why should I make apology for recommending something that would better the condition of this fair city? for I have some standards for life, one of which is to make the city or district in which I remain, even for a short time, better than I found it; and in this case I hope to make a much greater contribution than in some cases, but did not begin to do anything before I was the medium through which some good money from Canada was planted in Santa Ana. And I can further boast of having the largest and best field of Irish potatoes in the city of Santa Ana.

I believe in this delightful Southern country, and especially in this district, and predict a great future for the city of Santa Ana.

Some one with a vision must lead, because "without vision the people perish." There is but little vision required to see that a modern subway is badly needed on Fourth street. The people need it, the railways need it, and will be forced to have it. With the present development of the city, and the traffic from the east side of the Santa Fe line, created by people who desire to come to the city to transact their business, and the in-

creased business over the railways, there is a very heavy tax on the time of the farmer and the railways, to gether with the attendant danger to both life and property.

Some one may say there are gates. Yes, Mrs. Sanby was shut inside the gates, and had to drive her horse upon the Santa Fe station platform for safety, or duplicate the incident at Pasadena a few days ago, which is related by the Pasadena Star as follows:

"An apparently well authenticated case of carelessness on the part of street railway employees, which might easily have had fatal results is reported to have occurred on a south-bound North Lake avenue car Thursday morning. Mrs. M. F. Kellogg, an eye witness to the incident, says:

"As the car stopped north of the Lake avenue railway crossing, a series of quick, sharp rings from the warning bell at the gate gave notice that a train was approaching. Nevertheless, the conductor hastily leaped from the car, ran to the track, and waved a signal to the motorman to proceed. Scarcely had the car started, indeed, even before it moved, the gates began to drop, and the car was caught fairly on the track with the gates closed behind it and barring its way ahead. Crowding its way through the obstructing white arms went the car, with glass from broken windows flying in upon the passengers. Barely had the car stopped after clearing the track, when the train went rushing past with sickening promptness."

Then from a business point of view, can the business men not see that they are maintaining a "Chinese wall" between one of the finest agricultural and horticultural districts in the southland and your city, and making it possible for the city of Orange to build up fine corner blocks through the trade they draw from the district east and south of Tustin.

If the proper representations are made by the city to the railway people, there is little doubt in my mind but that the Santa Fe, the Pacific Electric and the Southern Pacific would put in the proposed subway at their own cost; and I go further and make the broad statement that it would be profitable for the Santa Fe and the Southern Pacific to follow the suggestion of the city and put in the second subway at First street, and draw their lines together, and make the subways broad enough to accommodate a double track for their express and passenger trains, and a freight line each; throw their yards southwest with plenty of room for all purposes. This would open up a possibility of Santa Ana in the near future having a divisional point and railway yards, and who knows but shop, too? Los Angeles land is very expensive, and the congestion is great there now; and the proposed railway shops and yards would be in the very heart of the production district which should be a great wholesale and retail point.

Two carloads of beans grown in Orange County went to Winnipeg last season, and \$10,000 worth of tomatoes the present season, but of course through one of the Los Angeles firms.

This is only a matter of business for the city trustees to look into, and their opportunity, yea, and their responsibility, is great in this matter. If the railways put in a subway, they will have to spend money for sand, cement, labor, etc. Men will earn the money, and spend it with the merchants, who, in turn, will put it in the banks, and the farmers will get the usual loans to carry on their development; and the pendulum of prosperity and city building that has swung so far west, and has been impeded on the east by bumping up against the railway crossing, would get its freedom.

If the men of Santa Ana, with the influence of the ladies, will stand by this proposition until the subway is put in I can assure you that it will be a great contribution to the betterment and development of a greater Santa Ana.

Sincerely yours,
G. L. DODDS.

April 22, 1912.

THAT BAD COLD

Vapor Treatment Surely Does Clean Out That Stuffed Up Head in Record Breaking Time.

Don't try to break up a cold with dangerous stomach disturbing drugs. Get directly to the inflamed membrane by breathing HYOMEL (pronounced High-ome). Get a bottle for 50 cents at the Rowley Drug Company and try this rapid and economical treatment that thousands are using.

Into a bowl of boiling water pour a teaspoonful of HYOMEL, cover head and bowl with a towel, and breathe deep into the lungs the healing vapor that arises.

Breathe this vapor for five or ten minutes until the head feels fine and clear, then go to bed and sleep soundly until morning. No cocaine or opium or harmful drugs in HYOMEL. It is guaranteed to end catarrh, or money back.

If you do your washing, try our rough dry work instead. It is reasonable in price. The People's New Laundry, 901 E. Fifth St. Both phones.

CHEAP FUEL, CHEAP FUEL. Apricot pits must be closed out. Price reduced to \$2.00 per ton in yard. GUGGENHEIM & CO., Santa Ana.

WEALTH AND BEAUTY JOIN HANDS

In San Jacinto

You have seen valleys, and heard place to accumulate a snug little fortune quick. We have people with us who have traveled all over the world, and lived in this State for years, and are in a position to judge of the true condition as compared with other localities—they are here to stay. Now is the time to get in right. All we ask is a look. Every one should see the best there is to be had in any line before they decide. It adds the judgment in making comparison, we know if you will become interested enough to make comparison that the jig is up. When this is done, it only remains for us to co-operate with you to be able to make, and doubly proud to know that the highest priced acre offered in the valley at this time would still be a bargain at twice the price asked. Heretofore we have had population enough, because of the scarcity of water, but conditions have changed since the great water discovery made recently. We now have more water than we have land, and not quite as many settlers as either, so come right along and bring your friends. You can't beat it for climate, water, fertility, beauty, or a Cal.

Look for another notice in this paper tomorrow. Send postal for photographs and further particulars. San Jacinto Board of Trade, San Jacinto, Cal.

HIGH SCHOOL AFTER PRIZE

Will be Hostess to Southern
California Oratorical Con-
test, Friday, April 26

The Santa Ana High School is
sues the following statement and ap-
peal:

The oratorical contest of Southern
California will be held in the high
school auditorium Friday evening,
April 26, at 7:45 o'clock.

This contest has created a great
deal of enthusiasm in the schools of
Southern California. Troop Poly-
technic won first place last year and
Santa Ana won second. It will be
remembered that Howard Hankey
won this cup for Santa Ana three
years ago, and as Troop is out of
the race this year, Santa Ana has
the best chance of winning.

Miss Dorothy Harding will represent
the home school, with an ora-

tion on "Civic Righteousness."

Let it be remembered that this is
the first time this contest has been
held in Santa Ana. It was hard for
the representatives of this school to
secure the contest here, and it is
through untiring efforts that this ora-
tion treat has been brought to Santa
Ana.

This will not be an uninteresting
contest, for the contestants from
Pasadena, Long Beach and Hunting-
ton Beach, are live and interesting
orators.

It is up to the people of Santa
Ana to show their appreciation of
such work and to promote good feel-
ing along the literary lines that
have been started in the local high
school. An admission of twenty-five
cents must be charged, as there will
be a great deal of expense along with
this contest.

Come and enjoy this literary treat.
A treat that Santa Ana has not had
before and will not have for quite a
while again.

AT THE COURTHOUSE

MURDERED WOMAN'S ESTATE IS \$12,000

Brother Files Petition—Insur-
ance Estate's Because
Montee Died First

Joseph O'Donnell of Anaheim has
petitioned for letters of administra-
tion on the estate of his sister, Mrs.
Cassie B. Montee, who was murdered
with her husband by George Biggs
on April 12. The estate is valued at
\$12,000, of which \$7000 is real estate
in Los Angeles, which was the sepa-
rate property of Mrs. Montee, and
the remainder in real estate, in-
cluding the ranch east of Anaheim,
which was community property. In
the estate is \$1500 insurance on the
life of Francis A. Montee, the hus-
band, which comes to the estate of
the murdered woman because Montee
died first. Montee was killed on
the spot, and was dead before Mrs.
Montee, rushing to him, was struck
down by the shovel in Biggs' hands.

Mr. and Mrs. Montee left no chil-
dren. The heirs named in the peti-
tion are James Montee of Pittsburg,
Kas., aged 80, father of the dead
man, and three brothers of Mrs.
Montee, they being Joseph O'Donnell
of Anaheim, Charles O'Donnell of
Fullerton, and Arthur O'Donnell of
Indianapolis, Ind., one sister, Mrs.
Mary E. Flannery of Monterey, Mex.,
and a niece and two nephews in
Southport, Ind. H. C. Head is attor-
ney for the petitioner.

Padgham Wins
Judge West's decision in throwing
out of court the suit of Cecil Du-
Bois and A. G. Thurston against L.
H. Padgham has been upheld by the
appellate court. DuBois and Thur-
ston sued Padgham because Padgham
entered into the directory business
after selling to DuBois, his partner.
The court held that a partner can
only restrain himself from again en-
tering business in the same city,
while the DuBois contract was for
the county. Dick Harding represented
DuBois and Scarborough & Forgy
represented Padgham.

Asks Letters
J. Wiley Harris has petitioned for
letters on the estate of Elizabeth K.
Kinsel, who died June 11, 1911, in
Sutherlin, Ore., where the husband
lives. The estate here is lot 15, G.
W. Ford's addition, worth \$1500.
Scarborough & Forgy represent Har-
ris.

IN THE JUSTICE'S COURT

USED A HOE ON THE HEAD OF AN ENEMY

For using a hoe on Manuel Ma-
rino's head, Epitacio Valenzuela to-
day paid a fine of \$30 in Justice
Cox's court. Marino's scalp was cut
in three places. The fight occurred
at Talbert. Valenzuela pleaded guilty,
and when sentenced declared he
"would not stand for it," but it was
then too late to withdraw his plea
of guilty, so he paid the fine.

Sent to Jail
Guadalupe Villa, who was arrested
at Aliso for terrorizing the neigh-
borhood with a revolver, was today
sentenced to sixty days in jail for
carrying the weapon.

Sued as Stockholders
Suit was begun today by M. C.
Greenlee against local stockholders
of the Pacific Consolidated Stone Com-
pany to collect a pro rata of indebt-
edness accruing from notes given D.
H. Dunn by the company on Decem-
ber 17, 1910, which notes are alleged
never to have been paid. Greenlee as
assignee asks judgment as follows:
Against A. J. Padgham, \$203.88; A.
R. Rowley, \$87.50; M. D. Halliday,
\$68.25; Mary L. Padgham, \$42.70;
Mary E. Padgham, \$250.60; David
Mitchell, \$42.88. Cobb & Dean of Los
Angeles are attorneys for the plain-
tiff.

RED MEN TO LEARN TO VOTE
U. S. Court Interpreter Is Sent to
Reservation to Instruct In-
dians on Franchise

LOS ANGELES, April 24.—Ralph
Dominguez, interpreter of the United
States District court for more than
twenty years, has been assigned the
task by the Indian Service of teach-
ing the Indians of the Soboba Reser-
vation in Riverside county how to
vote. Dominguez will leave for the
reservation, located four miles from
San Jacinto, Saturday. There are
two or three hundred Indians on the
reservation.

Huntington Beach Decides in
Favor of Spending \$70,000
on Pier

HUNTINGTON BEACH, April 23.—
The election held here yesterday
to decide whether this city shall
have a reinforced concrete pier cost-
ing \$70,000, to be obtained by issuing
municipal bonds for that amount re-
sulted in a victory for the bonds
over the strong opposition of a mi-
nority of voters. The vote was: For
the pier, 321; against the pier, 92;
total vote cast, 413, out of a regis-
tration of 492. A great deal of bit-
ter feeling has been aroused during
the past three months among the
proponents and opponents of the
pier bonds, and newspaper articles,
dodgers and all manner of publicity
methods have been used on both
sides. The result shows the over-
whelming desire of the people of the
city for the pier.

ATHLETES ENTER MEET AT BERKELEY

ANAHEIM, April 24.—Prof. Culp,
the high school coach, accompanied
by Paul Baker and Clarence Beebe,
went to Berkeley today. The two
boys will compete in the Pacific
coast track meet.

A business session of the W.C.T.
U. was held at the home of "Grand-
ma" Litten on South Olive street.
The M. E. church was well filled
on Sunday evening last, and an in-
teresting sermon was preached by
Rev. Ziegler.

Miss Look, who has been visiting
her sister, Mrs. Angel, has accepted
a responsible position in Los An-
geles.

The Aid Society of the Presby-
terian church will meet tomorrow
in the Sunday school rooms.

Mrs. Eichler's new residence
building was begun today, and just
across the street Miss Emma
Feather's elegant new home is near-
ing completion.

G. M. Duckworth will arrive in
this city today to visit relatives. He
comes from San Francisco, where he
was called by the serious illness of
his son, Carl, who formerly resided
here. The young man is much im-
proved and will soon be able to ac-
company his parents to their home in
Hutchinson, Kansas.

EVERGLADES WILL NOW BE RECLAIMED

Drainage Canals Project Op-
ened Today Will Reclaim
4,000,000 Acres

TALLAHASSEE, Fla., April 24.—
The official opening of the Everglades
drainage canals, being constructed to
reclaim the Everglades of Florida, be-
gan Monday. The program included
a trip through the newly-completed
Gulf to the Atlantic Canal by a large
party of visitors from various parts
of the country, led by Governor Gil-
christ.

The Gulf to the Atlantic Canal is
the first of a system of five great
channels begun two years ago to re-
claim 4,000,000 acres of Everglades
land.

The contracts provide that the
channels shall be completed before
July 1, 1913.

Cost of draining the Everglades
will not exceed \$1 per acre. Title to
the land is held by the state.
